#NEW GURUGRAM:

DWARKA EXPRESSWAY IMPACT

A 29 km long 150m wide 8 lane expressway that starts from Dwarka and crosses Bijwasan, New Palam Vihar, Kherki Daula and joins the NH-8 is now at an advanced stage. Once it is fully operational, it will provide faster access from Delhi to the Airport and Manesar alike, and will boost the livability of the New Gurugram sectors.

AIRPORT IMPACT

Proximity and convenient access to the IGI Airport, New Delhi is perhaps the prime reason for the emergence and success of Gurugram. Time and again the IGI Airport has won “World’s Number One” position in its category and it continues to grow impressively across Asian cities. With a 4 km tunnel connecting Dwarka Expressway to the New Gurugram sectors, the drive to the Airport and Aerocity will indeed be of just a few minutes.

THE E-WAY AND CORRIDORS IMPACT

The KMP Expressway provides signal-free connectivity to Gurugram from neighbouring cities such as Kundli, Manesar and Palwal etc. The improved commuting with better infrastructure, well developed roads and corridors is leading to faster population settlement in the area.

MNC CORPORATE IMPACT

Gurugram remains the largest corporate hub of NCR with more than 70% share in office leasing. Several start-ups, e-commerce, large Indian corporates and many Fortune 500 companies have set up their base in Gurugram, and it continues to generate employment opportunities.
